

GREEN LINE IS THE SAFETY LINE
ANYTHING THAT IS NOT GETTING CUT
MUST BE INSIDE THIS GREEN LINE

The diagram features a central white rectangular area. It is enclosed by a thin green border, which is the safety line. This green border is further enclosed by a thin red border, which is the cut line. The space between the green and red lines represents the bleed area. Two green arrows point from the text above to the left and right sides of the green line. Two red arrows point from the text below to the left and right sides of the red line.
